16 Read the following case study and answer all the questions that follow.

Harry is six years of age and has a learning difficulty. He has been diagnosed with mild autism. He lives with his mother Sophie and older brother Greg who is eight years of age. Both boys attend the local primary school. Greg is doing well at school. Harry is helped in class by a learning support worker and his teacher, Miss Ashton, who has indicated that he is making good progress.

Both Greg and Harry enjoy spending time together. They like playing football, using the games console and watching DVDs. Sophie is very proud that her sons have bonded and rewards them with days out and little treats.

(a) Using the games console helps both boys to develop their fine motor skills.

Define what is meant by **fine motor skills**.
